Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 24-47 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant claims a hob profile that is not clear. What is a "hob profile"? It appears as if applicant is claiming mold parts as golf ball parts.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Claims 24-47 are rejected under 35 U.S.C. 102(e) as being anticipated by Sullivan et al (6,083,119). Regarding claims 1, 30-32, and 37-40, Sullivan discloses a golf ball comprising a core and a cover. Applicant claims the method of making the golf ball as well as the type of mold used in manufacturing the golf ball. However, the golf ball disclosed by Sullivan appears to be identical to the golf ball claimed by applicant.

Art Unit: 3711

although the processes of making the golf balls are different (MPEP 2113). Regarding claims 26, 36, 41, and 42, Sullivan discloses an inner cover layer (applicant's intermediate) made from an ionomer. Regarding claims 27-29, 35, and 43, the outer cover layer may be made from ionomers or thermoplastic or thermoset polyurethanes. Regarding claims 33 and 34, Sullivan discloses dimples.

Response to Arguments

Applicant's arguments filed 11-1-04 have been fully considered but they are not persuasive. The prior art rejection is maintained because it is not clear if the claims are method limitations or limitations for the final golf ball. It appears as if applicant is claiming mold parts as oppose to golf ball parts. The "hob profile" is not understood. This term appears to be a method of making the golf ball as oppose to a final product. Does the "hob profile" differ in shape from a standard golf ball? If so, applicant is required to show figures with the "hob profile" shape.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 3711

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
